

**Table 1a: Estimated use values of agricultural land by jurisdiction.**

Use values are estimated for each of the eight Soil Conservation Service land capability classifications. Average values are reported for cropland (classes I - IV), pastureland (classes V - VII) and agricultural land (classes I - VII). /1/ Class VIII land is not included in the average use value of agricultural land because class VIII land is not considered suitable for agricultural purposes. The with risk values refers to land that is at risk of flooding. These values should only be used when the soil has poor drainage that is not remedied by tiling or drainage ditches or when the land lies in a floodplain.

Estimates apply to tax-year 2005.

-----DOLLARS-----

\* Use value taxation applies only within agricultural and forestal districts.

n.a. = not applicable because data are transferred-in, or data are not available to make estimate.

w/out risk = without risk. These estimates apply to land that is not at risk of flooding.

w/ risk = with risk. These estimates apply to land with poor drainage that is at risk of flooding. The methodology assumes that a complete crop loss occurs once every 20-years on land that is at risk of flooding.

1/ The use value of each land class is weighted by the total acreage of agricultural land in that class, as reported by the 1967 Virginia Conservation Needs Inventory, prior to averaging.

5/ Transfer-in data from Prince George County

7/ Transfer-in data from James City County.

9/ Transfer-in data from Bedford County.

11/ Transfer-in data from Montgomery County.

13/ Transfer-in data from Rockingham County.

15/ Transfer-in data from King William County.

17/ Transfer-in data from Amelia County.

19/ Transfer-in data from Frederick County.

21/ Transfer-in data from Rockbridge County.

6/ Transfer-in data from Nottoway County.

8/ Transfer-in data from Spotsylvania County.

10/ Transfer-in data from Prince William County.

12/ Transfer-in data from Roanoke County.

14/ Transfer-in data from Augusta County.

16/ Transfer-in data from Pittsylvania County.

18/ Transfer-in data from Loudon County.

20/ Transfer-in data from Isle of Wiight County.
