

Estimated Cropland and Pastureland Use Values using the Capitalized Cash Rental Rate Method – Tax Year 2021

USDA National Agricultural Statistical Service (NASS) released the fourth series of cash rental rates for irrigated and non-irrigated cropland and pastureland for Virginia counties and cities. These rental-rate values provide additional information for jurisdictions regarding agricultural land use-value assessment. Capitalized cash rental rates and the capitalized net income approach are both State Land Evaluation Advisory Council (SLEAC) approved methods for jurisdictions to consider when setting annual Agricultural and Horticultural Values. Below please find:

- Table 1 – Use-values¹ by jurisdiction for non-irrigated and irrigated cropland and pastureland (listed in alphabetic order).
- Table 2 – listing of counties and cities in each NASS crop reporting district

Values in Table 1 are derived from the existing methods for determining capitalization rates as described in the “Tax Year 2014: Methods and Procedures” found on the *Virginia's Use Value Assessment Program* web site at <http://usevalue.agecon.vt.edu/procedures.htm>. Rental rates as described below are divided by the capitalization rate for each jurisdiction to arrive at a per acre value for crop and/or pasture land.

NASS rental rates are annual values in \$/acre per year summarized from NASS surveys for the **crop year 2019** and the data can be found at this NASS site: <http://quickstats.nass.usda.gov/>. If there are sufficient number of responses to meet NASS nondisclosure requirements for a jurisdiction then a county-specific value is published. For example, in Table 1 the specific rental rate for cropland in Accomack is \$86.50 per acre. When there are not enough responses in a jurisdiction to meet NASS nondisclosure requirements, then all the data for the non-disclosed jurisdictions within a crop reporting district is summarized and published as a Combined Counties value. For example, in Table 1 the rental rate for pastureland in Accomack is \$38.50 per acre, the combined county value for Eastern District counties. A note of caution: *Combined Counties rental rates cut across jurisdictional lines and may not reflect all local market conditions.*

Additional information, past year's estimates, and publications on Virginia's Use Value Assessment Program can be found at <http://usevalue.agecon.vt.edu/>.

¹National Agricultural Statistics Service (NASS) County-Level Cash Rent Data <http://quickstats.nass.usda.gov/>. Accessed 7/02/2020.

²Capitalization Rate (without risk) is a sum of the average interest rate component (interest rate component is 7-year state average (2 year lag) (from AgFirst)) and average property tax rate (property tax component is 7-year jurisdiction average (3-year lag) (from Department of Taxation)).

³Values \$/acre = Land Rental Rate \$/ac ÷ Capitalization Rate.
